

Taxpayer \$Money\$ Wasted₂

Fluorides in Drinking Water

100% Waste - No Benefit

“The Food and Drug Administration Office of Prescription Drug Compliance has confirmed, to my surprise, that there are **no studies to demonstrate either the safety or effectiveness** of these drugs which FDA classifies as **unapproved new drugs.**”

Source: Letter to Dr. David Kessler, M.D., Commissioner, United States Food and Drug Administration, June 3, 1993.

**For every \$100 spent by taxpayers ...
\$99 is wasted ...**

American Water Works Association

www.awwa.org

“We drink very little of our drinking water. Generally speaking, **less than 1% of the treated water produced by water utilities is actually consumed.** The rest goes on lawns, in washing machines, and down toilets and drains.”

Polluting Companies save \$10-12,000/ton

Polluting companies must pay **\$8-10,000/ton** for the safe removal of these hazardous wastes. (Dr. Hirzy, PhD, retired US EPA chemist)

Polluting companies receive **\$1-2,000/ton** from municipalities for these fluoride products.
