

10 challenges facing the Public Health Service regarding artificial water fluoridation²

"It is difficult to get a man to understand something when his salary depends upon him not understanding" ---- Upton Sinclair

1. PHS (Health Canada) admits to the Auditor General of Canada that incorrect answers were given to petitioners.
2. PHS research shows that artificial water fluoridation doesn't work
"These findings suggest that achieving a caries-free status may have relatively little to do with fluoride intake, while fluorosis is clearly more dependent on fluoride intake."
[Journal of Public Health Dentistry 2008](#) (Ito 2007, [Pizzo](#) et al 2007 Review, [Azarpazhooch & Stewart 2006](#), [Maupome](#) et al 2001, [Kumar Levy](#)).
3. PHS research shows that artificial water fluoridation harms people ([Clark](#) et al 2006, [Ramn](#) et al 1977).
4. PHS admits to using outdated & irrelevant science to promote the policy of artificial water fluoridation. [Journal of Public Health Dentistry](#)
5. PHS misrepresents the WHO & the National Research Council Review 2006. ([Response to Health Canada 2009 Review](#))
6. Fluoride is an UNREGULATED drug (www.napra.com). PHS is NOT monitoring our fluoride intake, & is NOT monitoring health responses to this intake.
7. PHS ignores the requirement for "informed consent" for fluoride and its salts, considered to be drugs. [Health Care Consent Act 1996](#)
8. PHS makes repeated statements that are false and misleading. ([Response to Health Canada 2009 Review, Omissions](#)).
9. PHS has many conflicts of interest on this subject. ([Medicine Act 1991](#))
10. PHS research indicates that artificial water fluoridation harms the ecosystem ([Board of Health Hamilton, July 9, 2008](#)).

"Here's freedom to him who would read, Here's freedom to him who would write. There's none ever feared that the truth should be heard, But they whom the truth would indict." ---- Robert Burns (1759-1796).
