

## Fluoridation Chemicals are Unregulated, Unapproved, Illegal Drugs

**USA:** "The Food and Drug Administration Office of Prescription Drug Compliance has confirmed, to my surprise, that there are no studies to demonstrate either the safety or effectiveness of these drugs which FDA classifies as **unapproved new drugs**." *Source: Letter from Dr. David Kessler, M.D., Commissioner, United States Food and Drug Administration, June 3, 1993 to Congressman Kenneth Calvert, Chairman, Subcommittee on Energy and Environment, Committee on Science, Washington, D.C.*

**CANADA:** "Please note that fluoride compounds added to water systems are not the same as the fluoride compounds used in the dentist's office and **they are not regulated as drugs by Health Canada**." *Source: letter from Health Canada Drug Product Database Department, Jan 7, 2010 to Carole Clinch*

**If you listen to drug advertisements on TV today, you will notice that they they have 30 seconds or so of side effects that they're required by law to discuss. For some reason, people are not being told about the side effects of fluorides.**

## Fluoridation Chemicals are Uncontrolled Drugs

(source: National Research Council (NRC) Review 2006)

**NRC 2006 REVIEW Table 2-4** Susceptible groups consume up to **ten times** more than the average; e.g., diabetics, lactating mothers, athletes, construction workers, police, firefighters, and military.

**NRC 2006 REVIEW Table B-11** Estimates time to reach unsafe (acute) dose in various age groups in the population for a range of fluoride concentrations.

**NRC 2006 REVIEW Table B-14** Range of fluoride consumption is **four times** greater for the 99<sup>th</sup> percentile group than the average group.
