

The Pesticide Vote (16/05/06)

39th Parliament, 1st Session *** Edited Hansard • Number 024

Opposition Motion—Pesticides

Tuesday, May 16, 2006 — 3rd allotted day.

May 12, 2006 — Mr. Layton (Toronto—Danforth) — That, in the opinion of the House, beginning on the 22nd day of April (Earth Day) next:

(a) all pesticides which are regulated pursuant to the Pest Control Products Act be banned (i) within a dwelling-house, (ii) on any parcel of land on which a dwelling-house is situated, (iii) on any place that is within one hundred metres of a parcel of land described in paragraph (ii), (iv) in any school, hospital, office or similar building in which members of the public customarily stay for more than a day or work, or (v) on any private or public land that is customarily used by members of the public as visitors, licensees or in any other authorized capacity for recreation or entertainment, including but not limited to parks and sports grounds;

(b) that this ban not apply to a building used for the husbandry of animals, the cultivation of plants or the storage, processing, packaging or distribution of plants or animals or products made primarily from plants or animals, or in the immediate vicinity of such a building;

(c) that this ban not apply to a control product used within an enclosed building: to purify water intended for the use of humans or animals; to control or destroy a health hazard; to control or destroy pests that have caused an infestation; for commercial agricultural purposes; as a wood preservative; or as an insect repellent for personal use; and

(d) that should further exemptions be sought to this pesticide ban, then the onus to prove safety shall be placed on the manufacturer to show to the satisfaction of both the Minister of Health and the House of Commons Standing Committee on Health, through scientific and medical evidence, that an exemption is justified.
