

# Protect Your Right to Choose Safe *Bio-Identical Hormone Replacement Therapy*

## E-MAIL Your Comments to the FDA TODAY!

### The Deadline is Before April 4, 2006!

*It's True...Bio-Identical Hormone Replacement Therapy (BHRT) is Under Attack*

Wyeth Pharmaceuticals, the maker of **Premarin** and **Prempro**, drugs extracted from the urine of pregnant mares (hence the name: *pre-mar-in*) used in hormone replacement therapy, has requested the **FDA** to eliminate compounding pharmacies, which produce bio-identical plant-based hormones, a more natural and healthier alternative to Wyeth's prescription hormones.

**Why did Wyeth make this request?** In 2002 the Women's Health Initiative (WHI) demonstrated that Wyeth's **Premarin** and **Prempro** caused significant increase in breast cancer, blood clots to the lungs, heart attacks and strokes. Since then, Wyeth has seen a sharp decline in the sales of these drugs. **Because Wyeth is losing money**, it wants the **FDA** to take away **YOUR RIGHT** to choose what's **BEST** for your health. And, they have a chance of winning.

Texas doctor and author of "**Hormones, Health & Happiness**," Dr. Steven Hotze, asks for our help to convince the **FDA** not to touch the natural alternatives to pharmaceutical hormone replacement. **So please, if you're a doctor or a woman (or male) who's had a positive experience with Bio-Identical Hormone Replacement Therapy, please submit your comments to the FDA before April 4, 2006!**

**THE FOLLOWING WEBSITES HAVE DETAILS AND THE LINK TO THE FDA SO YOU CAN REPLY:**
