

# COMPLAINT FOR FULL DISCLOSURE AND JUDICIAL REVIEW OF THE U.S. SPECIAL VIRUS PROGRAM

## SUMMARY OF THIS COMPLAINT

Since the late nineteen seventies the world has pondered and dealt with a mystery called AIDS. In July 1992, plaintiff-petitioner, Boyd Ed Graves, received a diagnosis of HIV and began researching the origin of AIDS as perhaps a way to combat it. Over the last fifteen years, plaintiff's research has led to a federal virus development program entitled the U.S. Special Virus program (1962 – 1978). Any review of the fifteen progress reports of this federal program will solve AIDS.

In this regard, on May 15, 2000, defendant United States, Dr. Victoria Cargill, located the Special Virus program in the archives of the National Cancer Institute ("NCI"). See, . According to the defendant, she referred the discovery of the flowchart proof of the laboratory origin of AIDS to defendant United

States, Dr. Alan S. Rabson, Deputy Director of the NCI.

Any review of the correspondence between the parties will show:

- a) The archives contained progress reports #'s 14 and 15 of the U.S. Special Virus program.
- b) The information was turned over to Dr. Rabson.
- c) The parties discussed the specific reports in various correspondence over a number of years. See,
- d) The documents are not in the archives and their whereabouts is presently unknown.

## STATEMENT OF JURISDICTION

This lawsuit is filed in accordance with the January 9, 2007 final agency determination of defendant Michael Leavitt, Secretary, Health and Human Services under the Freedom of Information Act,

This issue of the U.S. ORIGIN of AIDS is of extreme public significance and importance. Plaintiff prays the court will allow for the 'widest latitude' in the litigation of this matter.

## THE MISSING PROGRESS REPORTS

Progress Reports 14 and 15 of the U.S. Special Virus program are pivotal in our further understanding of the U.S. ORIGIN of AIDS for a number of reasons. First, the two missing progress reports are the end reports of the secret, virus program in that they represent the years, 1977 and '78. Second, progress report #15 reveals the 'visible' taxpayer budget for the development of AIDS. Third, progress report #14 reveals the work of defendant United States, Peter Duesberg, which further shows the subterfuge of the U.S. Constitution and the truth.

The missing progress reports are crucial to the full understanding of the federal program that made AIDS.

## DR. RABSON IS A MEMBER OF THE SPECIAL VIRUS PROGRAM

Dr. Alan S. Rabson has a “vested interest” in not wanting the American public to not know about the U.S. Special Virus program. He has removed the progress reports from the archives because he is listed as a member of the ‘Developmental Research Segment’ of the Special Virus program. See, Ex.

Dr. Rabson was also instrumental in ‘thwarting’ the June 2002 General Accounting Office (“GAO”) “ORIGIN of the AIDS Virus” report whereby he certified the accuracy of the fake report, anonymously. See,.

Dr. Rabson must be held to account for his actions both then and now. The Court should compel Dr. Rabson to produce the missing progress reports.

## THE U.S. DISTRICT COURT FOR THE SOUTHERN DISTRICT OF CALIFORNIA

It is important to note plaintiff has previously attempted to bring a number of related legal actions regarding the U.S. ORIGIN of AIDS in this Court. Judge Jeffrey Miller dismissed the NINTH Circuit appeal without notice to the parties and the U.S. attorney agrees.

The Court has summarized plaintiff as follows:

(Plaintiff presented argument in open court on July 3, 2003)

[O]n July 4, 2003, San Diego Police Officers arrested him (plaintiff) for making “irrational statements the federal government made AIDS” After his arrest, the officers allegedly took plaintiff into custody, beat him, physically and verbally abused him, injected him with a substance, and transported him by ambulance to the violently mentally ill ward of the Veteran’s Hospital in La Jolla California. Plaintiff then claims he was “held there” (incarcerated) against his will for 72 hours (and was) reluctantly

released by the [Veteran's] Hospital on Monday, July 7, 2003." This entire episode, plaintiff insists, was in retaliation for plaintiff's statement concerning the United States government's responsibility for the AIDS virus.

## THE 1971 AIDS BLUEPRINT FLOWCHART

The 1971 "research logic" of the U.S. Special Virus is without doubt the key document to dismantling AIDS. The flowchart proves the "design", "purpose" and "intent" of the United States to make a "contagious cancer that selectively kills". The virus particle isolated under the first "decision point" of the flowchart proves under electron microscopy this is the origin of AIDS.

The 1971 flowchart provides a workmanlike approach to the fifteen progress reports of the U.S. Special Virus program. It is also clear that in PHASE IV-A of the program, experiments were conducted to inhibit and control AIDS. The

American people are entitled to a judicial review of the U.S. Special Virus program.

## PRESIDENT BUSH'S 2003 STATE OF THE UNION AIDS ORIGIN STATEMENT

In President' Bush's 2003 State of the Union Address, he made a point to say, " AIDS is a plague of nature". It is not. AIDS is a plague of Aryan man supported by U.S. Public law (91-213). According to the 1969 Congressional Record, AIDS is a 'weapon of depopulation".

This is further underscored by the May 1946 Appropriations hearing recorded in the June 3, 1946 TIME magazine article, "Better than the Bomb". In actuality, he development of AIDS precedes the 20<sup>th</sup> Century.

HIV/AIDS is the result of a century long hunt for a contagious cancer that selectively kills. If we compel the United States to replace in its archives those documents that have been removed, we strengthen our resolve for truth and

fact and our inherent right to know.

WHEREFORE; plaintiff prays the Court will Order the United States to relocate and replace progress reports #14 and 15 (1977, '78) back into the archives of the National Cancer Institute and award reasonable attorney fees and other costs to plaintiff who has pursued this "public interest disclosure" for nine years because of its extreme public significance.

Respectfully submitted,

Alberto Gonzalez,

The missing progress reports, when returned, coupled with the plethora of U.S. AIDS development documentation will assist this plaintiff and the American people in truly understanding the truth about the greatest man made loss of human life in the history of the world. Our cause is just, it is our union, which is imperfect
